Product Supply Update

Dear Healthcare Professional,

Due to short-term global supply constraints, we are experiencing stock shortages across a limited number of flavours/products across our lines. Please see the latest list of Nutricia product flavours/products that are either out of stock or are in short supply. This may therefore influence deliveries to communities or hospitals. Where possible, we have suggested alternative flavours/products to use in the meantime.

We apologise for the inconvenience this may cause. We remain committed to the continued supply of Nutricia products to patients.

Please note: Where a product is stated to be out of stock, patients may not be affected if they are holding stock at home. The expected recovery date identifies when we anticipate the product will become available via our wholesalers for supply to hospital or community pharmacies. Please contact your key account manager with any queries.

Should you have any questions or require any support please contact your local Nutricia Account Manager, or the Nutricia Resource Centre on 0800 783 4379 or support.ireland@nutricia.com.

Yours sincerely,

Anne Briody

Head of Healthcare Business Development
Nutricia Ireland

This letter contains suggested alternatives, please use clinical judgement for the most appropriate product for your patient needs.

*Requires feeding regimen review due to difference in formulation.

Important Notice: All products shown here are Foods for Special Medical Purposes and must be used under medical supervision. See individual product label for more details.
