

This information is intended for Healthcare Professionals (HCPs) Only
Product Update - Stock Situation Week Commencing 16th June 2025

Dear Healthcare Professional,

Please see the latest list of Nutricia products that are projected out of stock or are in short supply this upcoming week. This may therefore influence deliveries via Nutricia Homeward or to Hospitals via our wholesale chain.

We apologise for any additional work this may be causing you and your teams, but we are working hard to resolve this situation. Our primary focus is ensuring patients get the feed they require to reduce undue pressure on the healthcare system.

Please note: Where a product is stated to be out of stock for Homeward, patients may not be affected if they are holding stock at home. If any action is required for a specific patient, the Nutricia Homeward team will contact you and therefore proactive changes to regimens are not required.

In order to manage supply, we might deliver smaller quantities more frequently to patients. If a patient is concerned, please ask them to contact Nutricia Homeward directly. Where products are no longer listed below, please consider these to be back in stock and with sufficient supply.

From week to week you may see recovery dates change. This can be a result of various changes in the supply chain such as earlier/late quality control releases, transit times, factory production outputs or changes in demand.

Red **Out of Stock product** – Our Homeward team will contact the managing Dietitian if action is required to change to an alternative. The date identifies when we anticipate the product is available via Homeward or will become available via our wholesalers for supply to hospital or community pharmacies.

Orange The product has **low levels of stock**; orders can be fulfilled but if from Homeward may arrive in split/half deliveries; the date is when we anticipate additional stocks will become available. Some Wholesaler depots may have low levels of stock.

Green **Sufficient stock** is available

Amanda McPherson, Adult Healthcare Director

May 2025

Ordering Fresenius Kabi Tube Adult Tube feeds for Hospital use via AAH

Following the recent communication dated 2nd May 2025 regarding the supply challenge for Nutrison tube feeds, we now have a simpler way to order Fresenius Kabi tube feeds for hospital use through AAH. This solution will be in place throughout the duration of the supply disruptions which are anticipated to resolve late August, early September.

The Fresenius Kabi tube feeds below, will be available to order through **AAH Tamworth**, week beginning 26th May at your usual Nutricia contract price. Please note; we are unable to make this stock available at local branches.

If you don't normally order from AAH Tamworth, all you need to do is email or phone the AAH dedicated Nutricia Careline team with your order, **quoting your AAH account number and PO.**

AAH Nutricia Careline Team :

Phone: 0344 561 6020

Email: outerorders@hallohealthcaregroup.com

Bulk orders should be received by 2pm to guarantee next day delivery and all other orders need to be received before 4pm. Anything sent after 4pm will be processed the following working day.
