Product Update – Tube Feeding Stock Situation Week Commencing 27th April 2026

IMPORTANT UPCOMING CHANGE TO THE NUTRICIA WEEKLY STOCK LETTER, 23rd April

Dear Healthcare Professionals,

As previously advised, this update constitutes the final weekly Nutricia stock letter. With supply stabilised and availability returned to business-as-usual levels, routine weekly communications will now conclude.

Thank you for your patience and understanding throughout this period. We recognise that the situation has at times been challenging, and we sincerely appreciate your continued support and cooperation.

Dear Healthcare Professional,

Please see the latest list of Nutricia Tube Feeding products and the projected availability for the next four weeks. This may therefore influence deliveries via Nutricia Homeward or to Hospitals via our wholesale chain.

We apologise for any additional work that the stock constraints may be causing you and your teams, but we are working hard to resolve this situation. Our primary focus is ensuring patients get the feed they require to reduce undue pressure on the healthcare system.

Please note: Where a product is stated to be out of stock for Homeward, patients may not be affected if they are holding stock at home. If any action is required for a specific patient, the Nutricia Homeward team will contact you and therefore proactive changes to regimens are not required.

In order to manage supply, we might deliver smaller quantities more frequently to patients. If a patient is concerned, please ask them to contact Nutricia Homeward directly. Where products are no longer listed below, please consider these to be back in stock and with sufficient supply.

From week to week, you may see the short-term outlook change. This can be a result of various changes in the supply chain such as earlier/later quality control releases, transit times, factory production outputs or changes in demand.

Red **Out of Stock product** – Our Homeward team will contact the managing Dietitian if action is required to change to an alternative. The colour identifies when we anticipate the product is available via Homeward or will become available via our wholesalers for supply to hospital or community pharmacies.

Orange The product has **low levels of stock**; orders can be fulfilled but if from Homeward may arrive in split/half deliveries. Some Wholesaler depots may have low levels of stock.

Green **Sufficient stock** is available

Full recovery date: We anticipate sufficient and consistent availability of stock for all channels from this date onwards including safety stock. Full recovery dates are calculated on the basis that demand is stable and in line with forecasts.

No long-term constraint: No long-term supply issues anticipated due to capacity reasons. Short term out of stock risks can still arise due to temporary disruption.

Yours faithfully,

Amanda McPherson, Adult Healthcare Director

Flocare Container Update, 23rd April

Thank you for your patience and support while we navigated the recent Flocare container supply situation. With stock now becoming available, please be assured that we are continuing to prioritise reliable supply for both hospital and Homeward use.

The current situation: Hospitals

Nutricia Flocare Enteral Feeding Container 1.0L (210577), expected recovery date w/c 27th April

Flocare Infinity top-fill reservoir with integral giving set (90011), expected recovery date w/c 4th May

Alternative options

- Nutrison Sterile Water 1000ml Optri bottle, 132284, AAH code STE1001H

Note: During the out-of-stock period, pricing has been updated at AAH on the above-mentioned alternatives to ensure no financial impact in using alternatives.

During the out-of-stock period, if an alternative product to the above is specifically required, please source through your usual hospital routes and we will reimburse. Please submit invoices with accompanying order detail via NutrisonUK@nutricia.com

The current situation: Nutricia Homeward

Flocare Infinity top-fill reservoir with integral giving set (90011), expected recovery date w/c 4th May

Alternative options

- Flocare Enteral Feeding Container 1.0L (210577)
- 250 ml Sterifeed bottle (166055)
- 500 ml Sterifeed bottle (168921)
- Flocare Enteral Feeding Container 0.5L (210440)
