

**This information is intended for Healthcare Professionals (HCPs) Only**  
**Product Update – Tube Feeding Stock Situation Week Commencing 5<sup>th</sup> January 2026**

Dear Healthcare Professional,

Please see the latest list of Nutricia Tube Feeding products and the projected availability for the next four weeks. This may therefore influence deliveries via Nutricia Homeward or to Hospitals via our wholesale chain.

We apologise for any additional work that the stock constraints may be causing you and your teams, but we are working hard to resolve this situation. Our primary focus is ensuring patients get the feed they require to reduce undue pressure on the healthcare system.

**Please note:** Where a product is stated to be out of stock for Homeward, patients may not be affected if they are holding stock at home. If any action is required for a specific patient, the Nutricia Homeward team will contact you and therefore proactive changes to regimens are not required.

In order to manage supply, we might deliver smaller quantities more frequently to patients. If a patient is concerned, please ask them to contact Nutricia Homeward directly. Where products are no longer listed below, please consider these to be back in stock and with sufficient supply.

From week to week, you may see the short-term outlook change. This can be a result of various changes in the supply chain such as earlier/later quality control releases, transit times, factory production outputs or changes in demand.

**Red**      **Out of Stock product** – Our Homeward team will contact the managing Dietitian if action is required to change to an alternative. The colour identifies when we anticipate the product is available via Homeward or will become available via our wholesalers for supply to hospital or community pharmacies.

**Orange**      The product has **low levels of stock**; orders can be fulfilled but if from Homeward may arrive in split/half deliveries. Some Wholesaler depots may have low levels of stock.

**Green**      **Sufficient stock** is available

**Full recovery date:** We anticipate sufficient and consistent availability of stock for all channels from this date onwards including safety stock. Full recovery dates are calculated on the basis that demand is stable and in line with forecasts.

**No long-term constraint:** No long-term supply issues anticipated due to capacity reasons. Short term out of stock risks can still arise due to temporary disruption.

Yours faithfully,

Amanda McPherson, Adult Healthcare Director

## Flocare Container Update, 9th December 2025

Thank you for your ongoing support whilst we manage an evolving situation with Flocare containers, we are doing everything we can to continue to secure options for both hospital and Homeward use.

### The current situation: Hospitals

**Nutricia Flocare Container 1000ml, out of stock**

**Nutricia Flocare Container 500ml, out of stock w/c 15<sup>th</sup> December**

### Alternative options

- Flocare Infinity top-fill reservoir with integral giving set, 90011, AAH code FLO0441W
- Nutrison Sterile Water 1000ml Optri bottle, 132284, AAH code STE1001H

Note: Pricing has been updated at AAH on the above-mentioned alternatives to ensure no financial impact to Hospitals in using alternatives.

If an alternative product to the above is specifically required, please source through your usual hospital routes and we will reimburse. Please submit invoices with accompanying order detail via [NutrisonUK@nutricia.com](mailto:NutrisonUK@nutricia.com)

### The current situation: Nutricia Homeward

**Nutricia Flocare Container 1000ml, out of stock**

**Nutricia Flocare Container 500ml, potential out of stock in January**

#### **Alternative options**

- Flocare Infinity top-fill reservoir with integral giving set, 90011
- Nutrison Sterile Water 1000ml Optri bottle, 132284
- 250ml Sterifeed bottle, 166055
- 500ml Sterifeed bottle, 168921

Active Nutricia Homeward patients who currently have Nutricia Flocare Containers 1000ml, as part of their regimen are being temporarily switched to one of the alternatives above, as communicated on 3<sup>rd</sup> December. Please ensure you have reviewed the list of patients affected in your local area and have chosen an alternative.

Note: Pricing has been updated on the above-mentioned alternatives to ensure no financial impact in using alternatives.

It is expected that this situation will continue to the end of January 2026, when a return to consistent supply of non-sterile containers for both hospital and Homeward use will be available.

### **Update on Fresenius Kabi Adult Tube Feeds for Hospital use via AAH, 12<sup>th</sup> December 2025**

We have now recovered on the Nutrison tube feed range with no projected long term constraints. We are reducing stock holding of the Fresenius Kabi alternatives available in Tamworth at Nutricia contract prices accordingly.

The below two Fresenius Kabi alternatives remain available, however these will be phased out by End of December in line with the availability of Nutrison equivalents.

<b>Nutricia Product</b>	<b>Fresubin Similar Product (AAH Description)</b>	<b>Nutricia</b>	<b>AAH Link</b>
Nutrison Energy Multi Fibre 500ml	FRESUBIN ENERGY FIBRE 0.5L [NUTRICIA]	64757	FRE0779Q
Nutrison Energy Multi Fibre 1000ml	FRESUBIN ENERGY FIBRE EBAG 1L [NUTRICIA]	64673	FRE0781G

Please note, all claims for reimbursement for any third-party products not ordered via Tamworth, need to be submitted before the 31st of December 2025.
