Product Update – Tube Feeding Stock Situation Week Commencing 9th February 2026

Dear Healthcare Professional,

Please see the latest list of Nutricia Tube Feeding products and the projected availability for the next four weeks. This may therefore influence deliveries via Nutricia Homeward or to Hospitals via our wholesale chain.

We apologise for any additional work that the stock constraints may be causing you and your teams, but we are working hard to resolve this situation. Our primary focus is ensuring patients get the feed they require to reduce undue pressure on the healthcare system.

Please note: Where a product is stated to be out of stock for Homeward, patients may not be affected if they are holding stock at home. If any action is required for a specific patient, the Nutricia Homeward team will contact you and therefore proactive changes to regimens are not required.

In order to manage supply, we might deliver smaller quantities more frequently to patients. If a patient is concerned, please ask them to contact Nutricia Homeward directly. Where products are no longer listed below, please consider these to be back in stock and with sufficient supply.

From week to week, you may see the short-term outlook change. This can be a result of various changes in the supply chain such as earlier/later quality control releases, transit times, factory production outputs or changes in demand.

Red **Out of Stock product** – Our Homeward team will contact the managing Dietitian if action is required to change to an alternative. The colour identifies when we anticipate the product is available via Homeward or will become available via our wholesalers for supply to hospital or community pharmacies.

Orange The product has **low levels of stock**; orders can be fulfilled but if from Homeward may arrive in split/half deliveries. Some Wholesaler depots may have low levels of stock.

Green **Sufficient stock** is available

Full recovery date: We anticipate sufficient and consistent availability of stock for all channels from this date onwards including safety stock. Full recovery dates are calculated on the basis that demand is stable and in line with forecasts.

No long-term constraint: No long-term supply issues anticipated due to capacity reasons. Short term out of stock risks can still arise due to temporary disruption.

Yours faithfully,

Amanda McPherson, Adult Healthcare Director

Flocare Container Update, 6th February 2026

Thank you for your ongoing support whilst we manage an evolving situation with Flocare containers, we are doing everything we can to continue to secure options for both hospital and Homeward use.

The current situation: Hospitals

Nutricia Flocare Container 1000ml, out of stock

Nutricia Flocare Container 500ml, out of stock

Update on availability of new Flocare containers will be shared next week.

Alternative options

- Flocare Infinity top-fill reservoir with integral giving set, 90011, AAH code FLO0441W
- Nutrison Sterile Water 1000ml Optri bottle, 132284, AAH code STE1001H

Note: Pricing has been updated at AAH on the above-mentioned alternatives to ensure no financial impact to Hospitals in using alternatives.

If an alternative product to the above is specifically required, please source through your usual hospital routes and we will reimburse. Please submit invoices with accompanying order detail via

NutrisonUK@nutricia.com

The current situation: Nutricia Homeward

Nutricia Flocare Container 1000ml, out of stock

Nutricia Flocare Container 500ml, out of stock

The availability of the new Flocare containers is now estimated to be as follow:

- 500ml Flocare containers estimated w/c 2nd March
- 1000ml Flocare containers w/c estimated w/c 16th March

Alternative options

- Flocare Infinity top-fill reservoir with integral giving set, 90011
- Nutrison Sterile Water 1000ml Optri bottle, 132284
- 250ml Sterifeed bottle, 166055
- 500ml Sterifeed bottle, 168921

Active Nutricia Homeward patients who currently have Nutricia Flocare Containers 1000ml, as part of their regimen are being temporarily switched to one of the alternatives above, as communicated on 3rd December. Please ensure you have reviewed the list of patients affected in your local area and have chosen an alternative.

Note: Pricing has been updated on the above-mentioned alternatives to ensure no financial impact in using alternatives.

It is expected that this situation will continue to the end of January 2026, when a return to consistent supply of non-sterile containers for both hospital and Homeward use will be available.
